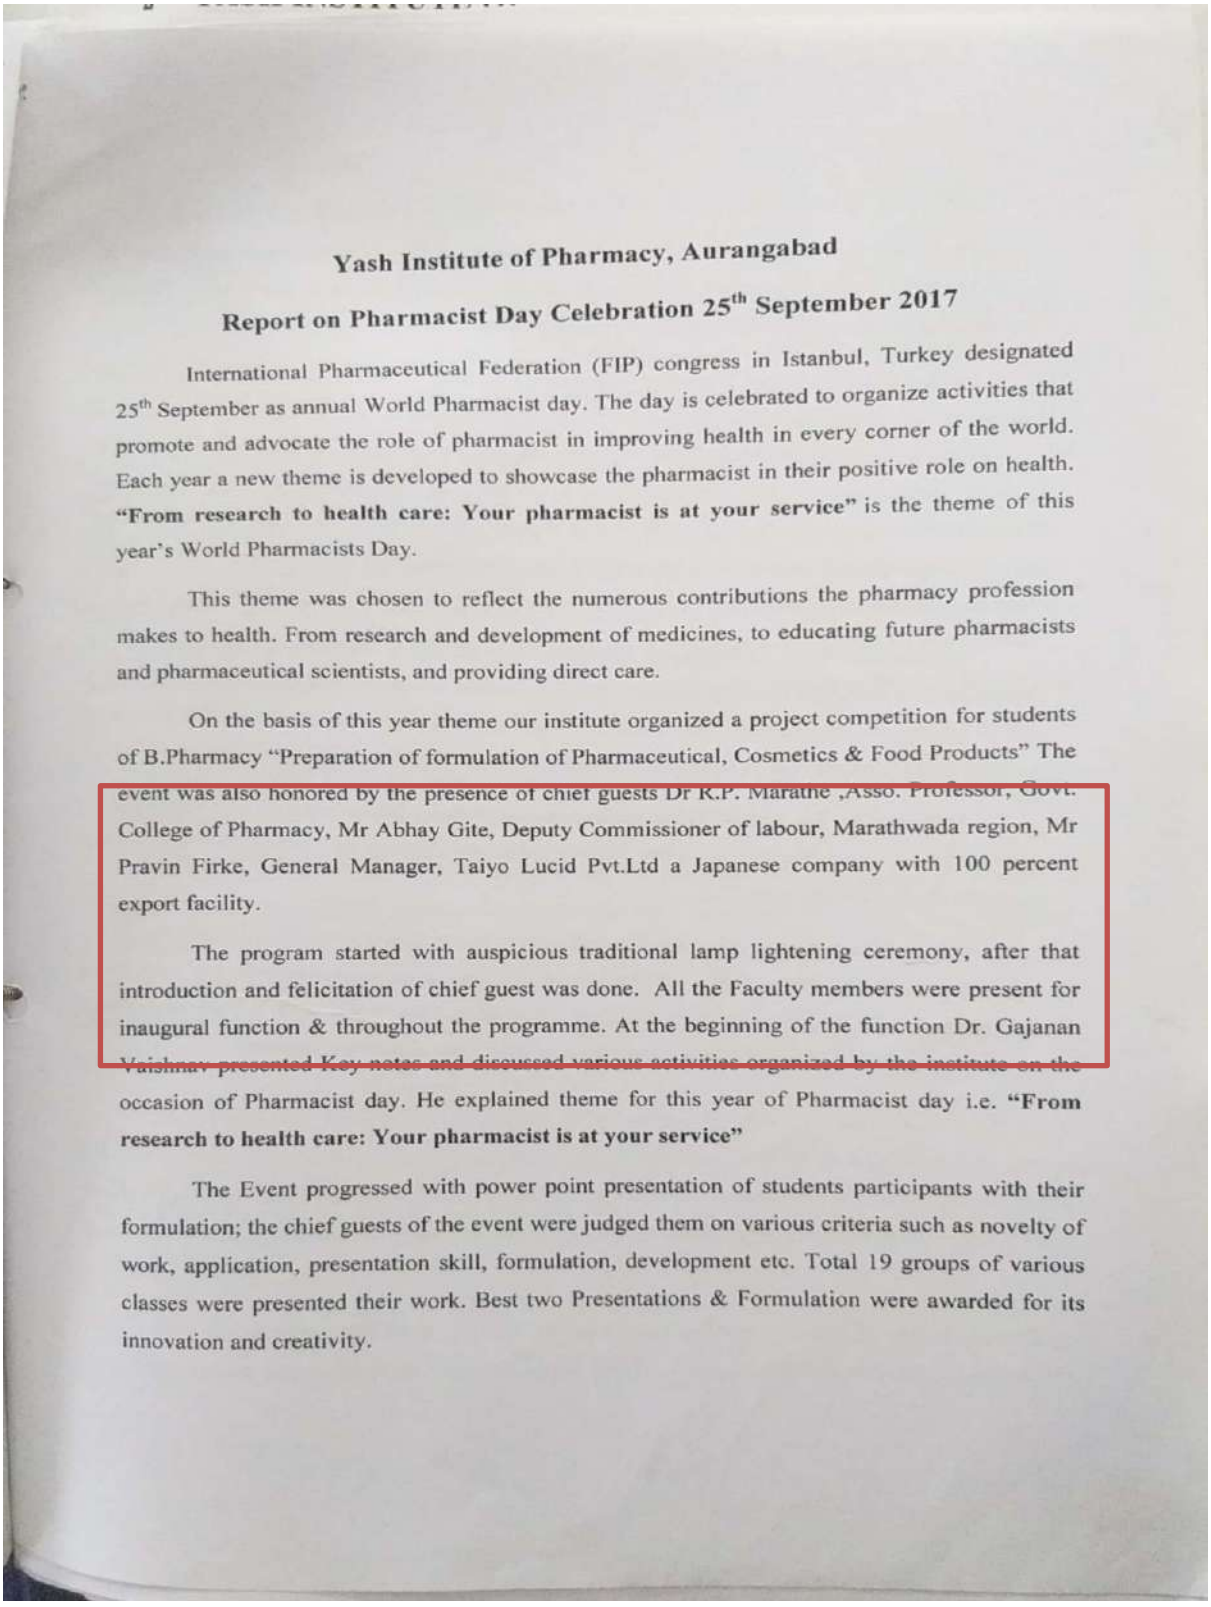
Report of Preparation of formulation of pharmaceutical, Cosmetics & Food Products



Yash Institute of Pharmacy, Aurangabad

Report on Pharmacist Day Celebration 25th September 2017

International Pharmaceutical Federation (FIP) congress in Istanbul, Turkey designated 25th September as annual World Pharmacist day. The day is celebrated to organize activities that promote and advocate the role of pharmacist in improving health in every corner of the world. Each year a new theme is developed to showcase the pharmacist in their positive role on health. **"From research to health care: Your pharmacist is at your service"** is the theme of this year's World Pharmacists Day.

This theme was chosen to reflect the numerous contributions the pharmacy profession makes to health. From research and development of medicines, to educating future pharmacists and pharmaceutical scientists, and providing direct care.

On the basis of this year theme our institute organized a project competition for students of B.Pharmacy "Preparation of formulation of Pharmaceutical, Cosmetics & Food Products" The event was also honored by the presence of chief guests Dr R.P. Marathe ,Asso. Professor, Govt. College of Pharmacy, Mr Abhay Gite, Deputy Commissioner of labour, Marathwada region, Mr Pravin Firke, General Manager, Taiyo Lucid Pvt.Ltd a Japanese company with 100 percent export facility.

The program started with auspicious traditional lamp lightening ceremony, after that introduction and felicitation of chief guest was done. All the Faculty members were present for inaugural function & throughout the programme. At the beginning of the function Dr. Gajanan Vaishnav presented Key notes and discussed various activities organized by the institute on the occasion of Pharmacist day. He explained theme for this year of Pharmacist day i.e. **"From research to health care: Your pharmacist is at your service"**

The Event progressed with power point presentation of students participants with their formulation; the chief guests of the event were judged them on various criteria such as novelty of work, application, presentation skill, formulation, development etc. Total 19 groups of various classes were presented their work. Best two Presentations & Formulation were awarded for its innovation and creativity.

Mr Abhay Gite Deputy Commissioner of Labour, in his speech emphasized that the knowledge base of the pharmacist is crucial to enable them to perform multiple roles. He also congratulated & appreciated the institute for arranging such Techno commercial event.

Dr R P Marathe Asso. Professor Government College of Pharmacy, Aurangabad, in his address to the gathering said that he liked the combination of judges were called for the evaluation i.e. one Mr Firke had a huge experience in dairy products & he also had completed B Tech in dairy product, Mr Abhay Gite was worked as HR head for many renowned pharmaceutical companies like Lupin,Wokhardt biotech, FDC& one from Academic background He also congratulates honorable principal sir for organizing such innovative activity on the occasion of Pharmacist Day.

Mr. Pravin Firke Asst General manager, Taiyo Lucid Pvt .Ltd. opined that profession of Pharmacy is knowledge based profession and has become service based profession . He urged that it has to be transformed into research based profession & students should have three qualities to achieve success in their life i.e. 'ASK' A-Attitude S- Skill & K- Knowledge.

Principal Dr S S Angadi in his address assured that our institute is going to arrange such innovative activities every year with Techno commercialization of formulation by finding sponsors from different industries.

Finally the programmes were concluded by vote of thanks presented by anchor of the event Harshada & Nikita. This activity was a different kind of celebration and was most satisfying ,as all budding pharmacy students presented their work with a very enthusiasm which was appreciated by all Chief guest which was evident from their feedback.

Edit story

I am Gajanan Vaishnav and I am a professor. My students and me are doing a project on Preparation Of Tea Bag Dosage Form From Carica Papaya Leaf Powder for it's medicinal purpose.

Carica papaya, a popular Indian traditional herbal medicine is commonly administered for treatment of Dengue fever. However, clinical trials proving it safety and efficacy are lacking mainly due to the absence of good quality dosage forms and credible placebos for the plant. The objectives of this study are to prepare a standardized preparation of the plant leaves and freeze-dried aqueous extract powder of the leaves, in a tea bag dosage form and to design and prepare credible placebos for these plant materials.
