

## ACTION TAKEN REPORT

Sr.no	Suggestion	Action taken
1.	Please provide air conditioners in classrooms	The classrooms are already big and airy and the ambience in itself is wide, open and green. Also if this is implemented it will increase the electricity bill and would be a financial burden to students resulting in increased tuition fees. Therefore this is not feasible.
2.	Adequate drinking water supply	Drinking RO plant requirement is discussed with the Principal and necessary action will be taken immediately.
