Aim/Objective:

The objective of molecular modeling and *in silico* drug design is to leverage computational techniques and methods to design, analyze, and optimize molecules for drug discovery and development.

1. Identification of Drug Candidates
2. Rational Drug Design
3. Virtual Screening
4. Pharmacophore Modeling
5. Molecular Docking
6. ADME/Tox Prediction
7. Lead Optimization
8. Prediction of Binding Energies
9. Structure-Activity Relationship (SAR) Analysis
10. Cost and Time Savings
11. Drug Repurposing

Overall, the objective of molecular modeling and *in silico* drug design is to streamline the drug discovery and development process, increase the success rate of finding effective drugs, and reduce the risks and costs associated with bringing new drugs to the market. It is a valuable tool for researchers and pharmaceutical companies working to address various medical conditions and diseases.

Learning Outcomes:

A certificate course on "Molecular Modeling and *In Silico* Drug Design" is designed to provide students with a foundational understanding of the principles, techniques, and applications of molecular modeling and computational methods in drug discovery. The learning outcomes for such a course may include:

1. Understanding Molecular Biology and Chemistry:
2. Molecular Modeling Techniques:
3. Software Proficiency:
4. Structural Bioinformatics:
5. Virtual Screening and Drug Design:
6. Quantitative Structure-Activity Relationships (QSAR):

ABOUT US

About Naandi

Naandi, which in Sanskrit means a new beginning, is one of the largest and fastest growing social sector organization in India working to make poverty history. Naandi has been partnering with various state governments, corporate houses, international and national development organizations and showcasing large scale successful delivery of public services.

Currently, Naandi is demonstrating the value of creating new social entrepreneurs by setting up social businesses that are even more efficient and closer to community needs than traditional grant-funded activities. Thus, safe drinking water, support to elementary school going urban children, skilling for unemployed youth and agriculture marketing are the four ventures in existence over and above the free services of Naandi.

Mahindra Pride Classroom

Since 2016, Mahindra Pride Classroom (MPC) has been rendering yeoman service to final year students of Government Engineering Colleges/Polytechnics/Arts & Science and ITI's across 20 states in the country. The training program's focus is to enhance beneficiaries' employability prospects via a 40 to 120-hour carefully designed module. Thus far, MPCs have empowered over 560886 youth with the skills needed to get a job and empower them with future-ready skills adapting to the constant change- and we have also been placing a significant number of them through our many JOB UTSAV's with reputed employers since inception. The complete costs of the training and placements are underwritten by the Mahindra group as part of their CSR contribution.

Towards the vision to develop 21st-century competencies to empower and equip youth for employment and lifelong learning Mahindra Pride Classroom offers a hybrid training model, bringing together conventional wisdom in skill training and the power of technology.

Under this initiative, specially selected and skilled adjunct faculty deliver skill-based training that helps the youth to build competencies that meet the industry's expectations.

Job Utsav

Job Utsav- a Mahindra Pride initiative, evolution of a technology enabled, unique yet holistic placement drive, brings together the best employers and a great talent pool through campus hiring. Around 69 Job Utsav have been organized successfully, and around 69796 beneficiaries used this opportunity to unleash their potential through online and offline placement drives PAN India with more than 300+ reputed employers like Bajaj Motors Ltd, Croma, HDBI financial Services, Hindustan Unilever, ICICI Lombard, Kotak Mahindra Bank, Maruti Suzuki services, Omega health care, Reliance, TATA Motors, Wipro etc. The integrity of the placement drives is assured by unbiased evaluation, quick turnaround time, smart mentoring, and superior managerial capabilities of the Job Utsav Team giving the Mahindra Pride Job Utsav an edge over other traditional placement drives.

TECHNOLOGY ENABLED JOB DRIVE

1. Digital Registration
2. Employer meeting & job description
3. Screening
4. Face to face interview
5. Announcement of shortlisted candidates

1. What is the primary regulatory authority in India governing the licensing and operation of retail pharmacy stores?
- A) Food Safety and Standards Authority of India (FSSAI)
 - B) Ministry of Health and Family Welfare
 - C) Drug Controller General of India (DCGI)
 - D) Central Drugs Standard Control Organization (CDSCO)

Answer: D) Central Drugs Standard Control Organization (CDSCO)

2. Which of the following documents is required to obtain a drug license for a retail pharmacy store in India?
- A) Aadhaar Card
 - B) PAN Card
 - C) Drug License Application Form
 - D) Voter ID Card

Answer: C) Drug License Application Form

3. What is the minimum educational qualification required to be a registered pharmacist in India?
- A) High school diploma
 - B) Bachelor of Pharmacy (B.Pharm)
 - C) Master of Pharmacy (M.Pharm)
 - D) Doctor of Pharmacy (Pharm.D)

Answer: A) High school diploma

4. Which of the following is NOT a requirement for the location of a retail pharmacy store in India?
- A) Proximity to schools
 - B) Compliance with zoning regulations
 - C) Access to clean water supply

1. Which step in *in silico* drug design involves predicting the interaction between a protein target and a small molecule?
- A) Target identification
 - B) Virtual screening
 - C) Molecular docking
 - D) Molecular dynamics simulation

Answer: c) Molecular docking

2. What is the primary purpose of molecular docking in drug discovery?
- A) Identifying potential drug targets
 - B) Predicting the binding affinity between a small molecule and a target protein
 - C) Generating PCR products for analysis
 - D) Synthesizing new compounds

Answer: b) Predicting the binding affinity betⁿ a small mol. & target protein.

3. In molecular docking, what is the role of the small molecule?
- A) Target protein
 - B) Ligand
 - C) Docking site
 - D) Substrate

Answer: a) Target protein

4. Which technique involves optimizing the conformation of a ligand to fit into the binding site of a protein?

- C) Generating PCR products for analysis
- D) Synthesizing new compounds

Answer: C Generating PCR Product for analysis

3. In molecular docking, what is the role of the small molecule?

- A) Target protein
- B) Ligand
- C) Docking site
- D) Substrate

Answer: B Ligand

4. Which technique involves optimizing the conformation of a ligand to fit into the binding site of a protein?

- A) Virtual screening
- B) Molecular dynamics simulation
- C) Molecular docking
- D) Energy minimization

Answer: C Energy minimization

5. What is the purpose of performing ADMIT analysis in drug design?

1. Brief details of the activity:

Activity Register Number (To be issued from IQAC Cell):	2023-24-39
Affected Metric No.(s):	1.2.1 & 1.2.2
Activity Title:	30 Days Add-on Certificate Course on "Starting & Managing Retail Pharmacy Store"
Activity Date:	14/10/2023 To 30/11/2023
Session:	July - December 2023
Academic Year:	2023-2024
Type of activity:	Add-on Course
Portfolio Cell/ Committee:	Student & Staff Development Cell
Teacher I/c:	Ms.R.B.Dhakne
Student I/c:	Ms.Rutuja Sahajrao
Objective:	To provide participants with comprehensive knowledge and skills necessary for the successful establishment and efficient management of a retail pharmacy business.
Target audience:	Second Year Students
No. of participants:	Student: 65

2. Brief description of the activity conducted:

Student and Staff Development Cell of Yash Institute of Pharmacy in association with Mintbotics Edutech Pvt. Ltd. organized Add-on Certificate Course on "Starting & Managing Retail Pharmacy Store" for second year students from 14th October to 30th November 2023. Total duration of course was 30 hours.

"Starting & Managing Retail Pharmacy Store" involves the establishment and efficient operation of a retail pharmacy business. This encompasses various aspects, including regulatory compliance, inventory management, customer service, and business administration.

The program started with worship of goddess Sarasvati by eminent personalities Dr. Gajanan Vaishnav, Mrs. Dipali Kulkarni and Respected Principal Dr. S. S. Angadi. Felicitation of speaker was done by Principal Dr. S. S. Angadi.

In the "Starting & Managing Retail Pharmacy Store" program, the Principal Sir keynote emphasized the dual role of entrepreneurs as healthcare providers, encouraging a commitment to community service through thriving and impactful retail pharmacy ventures.

The 10 sessions of each 3 hour duration was conducted for Add-on Certificate Course on Starting & Managing Retail Pharmacy Store for 10 days. The schedule for lectures is 06.00 pm-09.00 pm in online mode on Mintbotics platform. Total 65 students of third and final year were enrolled for the course.

ACTIVITY REPORT

CMF-ACT-F002/V02/W.e.f.: 09-October-2023

Practical sessions in the computer lab, focusing on relevant software, were conducted to facilitate students' easy understanding of concepts related to managing a retail pharmacy store.

After completing the "Starting & Managing Retail Pharmacy Store" course, according to assessment procedure test and viva was conducted to evaluate student understanding, with e-certificates awarded to those scoring above 70%.

The "Starting & Managing Retail Pharmacy Store" Add-on Certificate Course concluded with participants gaining comprehensive knowledge and practical insights into the key aspects of initiating and efficiently operating a retail pharmacy store, equipping them with valuable skills for success in the pharmaceutical retail sector.

Overall, the success of the program was heightened by the enthusiasm and participation of students, Contribution of the Resource Persons and finally the efforts put by the college staff and team. Ms. R. B. Dhakne (Co-ordinator Add-on bridge cell & Course Convener)

3. Impact of the activity:

- Participants gained the knowledge and skills needed to initiate and manage a retail pharmacy store, fostering entrepreneurship in the pharmaceutical sector.
- Practical insights enhanced participants' ability to efficiently handle day-to-day operations, from inventory management to customer service, ensuring smoother store functioning.
- Emphasis on customer service strategies empowered participants to adopt a customer-centric approach, enhancing the overall shopping experience and loyalty.
- Participants developed financial acumen, learning effective budgeting, cost control, and financial management strategies crucial for sustaining a retail pharmacy business.
- The course enhanced employability for those seeking positions in retail pharmacy management, offering practical skills sought after by employers in the pharmaceutical sector.
- The inclusion of practical sessions allowed participants to apply theoretical knowledge to real-world scenarios, reinforcing their understanding of retail pharmacy management.
- The course provided participants with industry-relevant knowledge, keeping them abreast of the latest trends, technologies, and best practices in the retail pharmacy sector.

Overall, the "Starting & Managing Retail Pharmacy Store" course left a lasting impact by empowering participants with a holistic skill set, fostering a proactive approach to retail pharmacy management, and contributing to the development of successful and resilient entrepreneurs in the pharmaceutical retail industry.

Target audience:	Third and Final Year Students
No. of participants:	Student: 61

2. Brief description of the activity conducted:

Student and Staff Development Cell of Yash Institute of Pharmacy organized an Add-on Certificate Course on "Structural Elucidation of Organic Compound "for third and final year students from 13th October to 30th November 2023.Total duration of course was 30 hours.

"Structural Elucidation of Organic Compounds" refers to the process of determining the detailed molecular structure of organic molecules. This field is critical in chemistry, particularly in organic chemistry and related disciplines. The elucidation process involves the identification and confirmation of the connectivity of atoms within a molecule, as well as the spatial arrangement of these atoms in three-dimensional space.

The program started with worship of goddess Sarasvati by eminent personalities Dr.Vandana Patil, Dr.Ashok Narute, Mrs.Dipali Kulkarni and Respected Principal Dr. S. S. Angadi. Felicitaton of speaker was done by Principal Dr. S. S. Angadi.

After that keynote address by the Principal for "Structural Elucidation of Organic Compounds". He expressed that program will serve as an introduction and inspiration for students. He highlighted the significance of the course and encouraged active engagement of students in the study of organic compound analysis.

The 10 sessions of each 3 hour duration was conducted for the Add-on Certificate Course on Structural Elucidation of Organic Compound during 9 days. The schedule for lectures was 02.00 pm-05.00 pm. Total 61 students of third and final year were enrolled for the course.

Throughout this period Dr. Vandana Patil provided informative sessions, teaching techniques and methods for analyzing and determining the structure of organic molecules. The curriculum covered spectroscopic methods such as NMR, IR, and mass spectrometry, along with chromatographic techniques.

The practical session conducted by Dr. Vandana Patil on the polarimetry provided students with a hands-on experience to reinforce theoretical knowledge. The detailed explanations, interactive demonstrations, and real-world applications helped students grasp the significance of polarimetry in organic compound analysis. This session contributes to the overall enrichment of students' practical skills and understanding in the field of structural elucidation.

After completing the "Structural Elucidation of Organic Compounds" course, according to assessment procedure test and viva was conducted by Dr. Vandana Patil to evaluate student understanding, with e-certificates awarded to those scoring above 70%.

The Add-on Certificate Course on "Structural Elucidation of Organic Compounds" successfully provided students with practical skills and a deeper understanding of the field. With positive achievements and ongoing improvements, the course remains a valuable addition to the academic curriculum, contributing to the overall academic excellence of the institution.

Overall, the success of the program was heightened by the enthusiasm and participation of students, Contribution of the Resource Persons and finally the efforts put by the college staff and team. Ms. R. B. Dhakne (Co-ordinator Add-on bridge cell & Course Convener)

Target audience:	Third and Final Year Students
No. of participants:	Student: 104

2. Brief description of the activity conducted:

Student and Staff Development Cell of Yash Institute of Pharmacy organized an Add-on Certificate Course on "Molecular Modelling and *in silico* Drug Design" for third and final year students from 12th October to 30th November 2023. Total duration of course was 30 hours.

"Molecular Modelling and *in silico* Drug Design" is a discipline that utilizes computational techniques to study and predict the behavior of molecules at the molecular and atomic levels. In the context of drug discovery, this field plays a crucial role in designing and optimizing potential drug candidates before they are synthesized and tested in the laboratory.

The program started with worship of goddess Sarasvati by eminent personalities Dr. Gajanan Vaishnav, Dr. Ashok Narute, Mr. Raman Naiknaware and Respected Principal Dr. S. S. Angadi. Felicitation of speaker was done by Principal Dr. S. S. Angadi.

The 10 sessions of each 3 hour duration was conducted for Add-on Certificate Course on Molecular Modelling and *in silico* Drug Design for 9 days. The schedule for lectures is 02.00 pm-05.00 pm. Total 104 students of third and final year were enrolled for the course.

Throughout this period, informative sessions were conducted by expert Dr.Gajanan Vaishnav Sir, focusing on the importance of Introduction, QSAR (Quantitative Structure-Activity Relationship), Molecular and Virtual Screening, Molecular Modelling, and Fundamentals of Drug Design.

The QSAR (Quantitative Structure-Activity Relationship) was conducted by Dr. Ashok Narute, while Mr. Raman Naikaware and Dr. Gajanan Vaishnav led practical sessions on molecular and virtual screening, as well as molecular modeling.

The "Molecular Modelling and *in silico* Drug Design" course conclusively empowered students with advanced computational skills, theoretical insights, and practical application, positioning them for success in drug discovery and design.

After completing the "Molecular Modelling and *in silico* Drug Design" course, according to assessment procedure test and viva was conducted to evaluate student understanding, with e-certificates awarded to those scoring above 70%.

3. Impact of the activity:

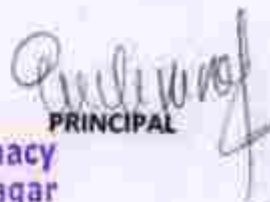

- Students developed advanced skills in molecular modeling software and gained proficiency in *in silico* drug design, contributing to their computational expertise.
- The course provided a strong theoretical foundation in molecular modeling principles, allowing students to comprehend the intricate processes involved in drug design at a molecular level.
- Participants gained valuable insights into the drug discovery process, understanding how *in silico* methods contribute to the identification and optimization of potential drug candidates.
- Participants developed a strong problem-solving aptitude, as they engaged in projects and case studies that required applying molecular modeling techniques to address real-world challenges in drug design.
- Students with a keen interest in research found the course to be a stepping stone, offering them opportunities to explore further studies or projects in the realm of molecular modeling and drug design.

EVENT REPORT

CMF-EVT-F006/V00 W.e.f.:01-January-2020

Interview Preparation-1 , Professional Communication, Acing a Group Discussion, Professional Ethics, Critical Thinking, Presenting a Project, Interview Preparation-2 , Group Presentation, Digital Identity, Art of Speaking – Assessment, Problem solving and Money Management.

These sessions could be part of a comprehensive personal and professional development program aimed at helping individuals grow and succeed in various aspects of their lives. The order and content of the sessions can be adjusted based on the specific needs and goals of the participants. Each session should ideally include interactive elements, discussions, and practical exercises to reinforce the learning process.

That's great to hear that the "Employability Enhancement Training Program for Girls" has shown significant improvement in the students' responses on the post-assessment compared to the pre-assessment. It suggests that the program has been effective in enhancing the employability skills of the girls who participated.

Certificates from Naandi Foundation's Mahindra Pride Classroom can be valuable for these students as they can serve as tangible proof of their skills and achievements, which can help them in their future job searches and career development. It's essential to recognize and celebrate the progress and accomplishments of the students who have completed the program, as it not only boosts their confidence but also highlights the success of the training initiative.

Overall, the success of the course was heightened by the enthusiasm and participation of students, Contribution of the Resource Persons and finally the efforts put by the college staff and team. Ms. R. B. Dhakne (Co-ordinator Add-on bridge cell & Course Convener).
